MANY LIVES IN PERIL.

Incendiaries at Work in a Columbus Avenue Apartment House,

The fire marshal has not yet succeeded in finding any trace of the incendiary who tried to set fire to the five-story apartmen house at No. 769 Columbus avenue shortly after 11 o'clock Wednesday night. There are four apartments on each floor, and every one of them is occupied.

Mrs. Mulvenin lives in one of the front apariments on the third floor, and oppo-site her is a family named Brendarig. The two rear apartments on the same floor are occupied by the families of Robert Connelly and James Bradley. Wednesday night Connelly was passing through the ball and saw smoke issuing from beneath a door leading to Mrs. Mulvenin's rooms. He awakened all the tenants and the flames were speedily extinguished. Then it was found that an incendiary had been at

The fire had been started in a pile of ate paper saturated with kerosene, and d it been allowed to burn five minutes ager the whole house would have been flames and many lives would have probly been lost. This is the second attempt it has been made to burn the same house ring the past two months.

WILL HOLD ITS GOLD. DECLINE IN STOCKS, count-Yellow Metal Comes

to America.

London, Sept. 10 .- The Directors of the Bank of England have advanced the bank's per cent. This is the first time that the bank has increased its discount rate since February 22, 1894. The immediate effect

of the announcement of the increase was to cause a decline on the Stock Exchange of consols, home rallway shares and American rallroad stocks.

The advance in the rate of discount was the result of a decision on the part of the directors of the bank to stop the sudden outflow of gold to Russia and Austria, rather than to the United States. The rate of private discount followed the bank rate.

The steamship Trave, which reached this port Wednesday evening, brought the Government Cotton Crop Report for Sepfollowing consignments of gold: W. H.

Weckerodt. He sent young Max to a milltary school, where the latter fell in love
with a peasant girl. He promised to marry
her, and then told his father. The Baron
swore, and as Max refused to give up his
love, drove him away from home.
Then young Max shipped aboard one of
Kaitser Wilhelm's cruisers, determined to
rise from the forepeak to the poopdeck by
some great act of valor. But the Kaiser
only played dight, and at the end of four
yourse Max had served his time out and
was still only an A. B. Then he went
home and found that it was not a good
time to play the prodigal son. The old
Baron did indeed fall upon his neck, but
only for the purpose of heaving him down
the front steps.

Max then came to America and fell in
love with Amelia Stern, who would not
have him at any price. Her refusal upset
his mind, and Wednesday night he was
taken to Bellevue and locked up in the
lassne ward.

1896. The corn crop is enormous, but this is not desired, as the huge surplus from the crop of 1895 has depressed the price so low that there is scarcely a profit in slipping the stu fito market.

There were some hopes during the day that the St. Paul directors might declare an extra dividend, but when the regular dividend was announced in the last hour the market took a fresh downward dip, and closed weak at the lowest prices of the day. Declines ranged from 1 to 2½ per cent, and were most marked in the industrial and granger groups.

The increase in the St. Paul earnings and the dividend declaration held that stock steadler than the remainder of the list, but it declined 1 per cent, nevertheless. The announcement of the St. Paul dividend was the last of the dividend ancounted, and the market showed a stendy effort throughout the day to market long effort throughout the day to market long area without the same month of last year.
